

Gripmaster Glove

GNN192

Features and Benefits

- Multi-layered Gripmaster technology prevents oil penetration while repelling water ensuring excellent grip
- Anti-Bac antimicrobial treatment provides protection against harmful bacteria and an anti-odour barrier
- 13 gauge lycra/nylon shell provides stretch for a close fit and breathability
- No strikethrough to the inside of the glove to cause irritation or heat build up
- Machine washable increasing glove life without reducing effectiveness of Anti-Bac treatment
- Thin coating ensures superior flexibility and dexterity
- Certified to EN388:2016 rating 4131X

Applications

- General purpose work glove
- Hand and power tool operations
- Maintenance operations
- Baggage Handling
- Construction industry
- Automotive industry
- Logistics and warehousing
- Mining
- Agriculture
- Pulp and Paper

02/2021 E&OE

there's safe and there's Maxisafe.

Black Knight Anti-bac™ Technology

About Anti-bac™

MAXISAFE announce the launch of their new Antimicrobial glove treatment. The antimicrobial coating on the gloves provides an additional level of protection to industrial workers against harmful bacteria i.e. Staphylococcus aureus ATCC 6538 and Klebsiella pneumoniae ATCC 9352, as well as an Anti-odour barrier which will not deteriorate or reduce in effectiveness with multiple washes.

ANTI-bac™ is an innovative solution applying antimicrobial protection to our industrial glove range which demonstrates Maxisafe's commitment to Industry leading innovation globally.

MAXISAFE commits to continuously invest in researching optimal solutions to better protect healthcare professionals and hand protection as well as to enhance human well-being.

Anti-bacterial Test

Test Item	Test Result		
	Sample	Anti-bac™ 10% processing	
Anti-bacterial KS K0693 : 2006 -fungiatatic action decrement (%)		Early Liner	Washing 10 times
	Test fungus 1	99.9%	99.9%
	Test fungus 2	99.9%	99.9%

Anti-odor Test

Test Item	Test Result	
	Anti-bac™ 10% processing	
Anti-Odor (%) : NH3 (Ammonia) gas	Early Liner	Washing 10 times
	100%	62.5%

*Test fungus 1: Staphylococcus aureus ATCC 6538 *Test fungus 2: Klebsiella pneumoniae ATCC 9352

(After 18hrs)

	Anti-bac™ Processing	Anti-bac™ 10% processing
